## PREFACE

This checklist records the publications of departments, boards, and other issuing agencies of the Government of the Province of Ontario during the period from 1956 to 1971. As there is no comprehensive central collection, the work of compilation has been done by visiting libraries and certain government offices to examine the publications that still exist. This checklist continues a previous one issued in 1964 under the title: *Publications of the Government of Ontario, 1901-1955*, a checklist compiled for the Ontario Library Association, by Hazel I. MacTaggart. These lists are bibliographical records, and are not meant for acquisition purposes, as most of the titles are out of print.

**LOCATION.** For the most part, only publications that were available for examination are included. Union catalogues in the National Library of Canada, Ottawa, the Metropolitan Toronto Central Library, and the University of Toronto Library, have been valuable aids for location. At the end of the entry for each title, there is given a location symbol representing one library where it has been found. The symbols for libraries are mainly those used by the National Library of Canada. If a publication is not in a library collection, indication is made of the government office where it has been seen. For serial publications, more than one location may appear.

**ARRANGEMENT.** Following a list of legislative and executive publications, the material is arranged by issuing body. Reports are given first, followed by other serial publications. Separate publications are put under the heading *Special publications*, usually in alphabetical order. However, strict alphabetical arrangement has not been adhered to, if there is some advantage in arranging by date or by key word in the title.

**SERIAL PUBLICATIONS.** For serial publications the date of the first issue and, if publication has ceased, the date of the last issue are given after the title. The dates of reports published during the period 1956 to 1971 are usually itemized in full. Descriptive notes give information for the same period; occasionally earlier or later dates are given in order to make the record complete. In recording dates, a diagonal line between two dates indicates a year that is not a calendar year. A hyphen between two dates is used when the report covers two or more years.

**CHANGES IN GOVERNMENT ORGANIZATION.** Wherever possible, a brief account has been given of changes in organization or name and of the main functions of new agencies. This information has been taken from: the *Statutes* and annual reports (when available); *Directory and guide to the services of the Government of Ontario, 1956-1967*; *The Ontario Government directory and guide, 1971*; and *Report of the Committee on the Organization of Government in Ontario, 1959*.

**TERMINOLOGY.** "Reissued" has been used to denote a publication with a new imprint date. It may be a new edition or a reprint. If it is known to be a

reprint, the term "reprinted" has been given. "Processed" is the term used to describe forms of reproduction other than ordinary printing. The abbreviation "illus." has been used to cover illustrations, with the type frequently being specified, such as diagrams and maps.

**MATERIAL OMITTED.** Publications omitted include maps, posters, items that appear to relate to internal administration, news letters, staff magazines, bills, office consolidations, and any separate printing of acts or regulations. However, if an act is published with related matter, it has been listed. Extracts reprinted from government publications have not been included, unless they are of some particular interest; neither have reprints of articles written by government officials and appearing in non-government publications, unless they have the imprint of a department. Publications of provincially supported educational institutions have been omitted.

**ACKNOWLEDGMENTS.** This work has been compiled in the Bibliographic Services Centre, Printing Services Branch, Ontario Ministry of Government Services, whose staff has been most helpful, and without whose assistance it could not have been completed. The main depository of publications is the Legislative Library, Toronto; the librarians there have been generous in their cooperation and support, as were others contacted, especially the librarians in the Ontario government libraries.

The record of government publishing is being kept up-to-date by *Ontario Government publications, monthly checklist*, and an annual catalogue.

## MILK COMMISSION OF ONTARIO

The Milk Commission of Ontario was established in 1965, as a body corporate with not fewer than three members, to supervise all phases of the dairy industry in the Province. It was set up under the Milk act which provided for the control and regulation of the marketing of milk, cream, and cheese, and the quality of milk, milk products, and fluid milk products.

The new Commission replaced the Milk Industry Board of Ontario, which was established in 1957 to take over the functions of the Milk Control Board of Ontario and the Milk Products Board of Ontario.

## DEPARTMENT OF ECONOMICS AND DEVELOPMENT

In 1956 the Office of the Provincial Economist in the Treasury Department was established as the Department of Economics. Its function was to study and advise upon economic and financial conditions, economic and financial policy, and fiscal relations between governments. In January 1961, it was renamed the Department of Economics and Federal and Provincial Relations. In December 1961, this Department was amalgamated with the Department of Commerce and Development and continued as the Department of Economics and Development.

The Office of the Chief Economist was set up in the Department on January 1, 1965, to co-ordinate economic and statistical services, both within the Department and among the various provincial agencies. This Office was divided into six branches: Applied Economics, Economic Analysis, Economic Planning, Federal-Provincial Affairs Secretariat, Regional Development, and Ontario Statistical Centre.

On December 16, 1967, the economics branches were transferred to the Treasury Department. The promotion of trade and industry remained as the chief responsibility of the Department of Economics and Development. Accordingly, on April 11, 1968, it was renamed the Department of Trade and Development.

An article in the *Ontario economic review*, April 1966, "The new economics" and the Province of Ontario, by H. Ian Macdonald, chief economist, gives fuller information on the Department.

**COMMUNITY PROGRAMMES BRANCH**

The Community Programmes Branch assisted communities to provide programmes of recreation and adult education. It was also responsible for classes in English and citizenship for newcomers to Ontario. In 1961 this function was transferred to the Department of the Provincial Secretary and Citizenship.

In 1964 the Branch became a division of the Special Schools and Services Branch and in June 1968 was amalgamated with the Youth Branch as the Youth and Recreation Branch.

**SCHOOL BUSINESS ADMINISTRATION BRANCH**

The School Business Administration Branch was established in 1965 with responsibility for the Education Data Centre, the Division of School Planning and Building Research, the School Plant Approvals unit, and from 1966 the Grants Division.

The Division of School Planning and Building Research was formed in June 1964 "to develop a program of research and investigation into all aspects of the construction of school buildings and their equipment." In 1968 the Division became known as a Section and was later included in that part of the Branch called Architectural Services.

## DEPARTMENT OF ENERGY AND RESOURCES MANAGEMENT

The Department of Energy Resources was formed in 1959 to administer acts relating to the gas and oil industries. On September 1, 1960, it assumed the administrative functions of the Ontario Fuel Board, which ceased to exist on that date.

In 1964 conservation and water management programs were assigned to the Department and it was renamed the Department of Energy and Resources Management. In 1969 the Department was given responsibility for the quality of the environment and the Air Management Branch (formerly the Air Pollution Control Service) and the Waste Management Branch were transferred from the Department of Health.

In 1970 activities relating to energy were transferred to other departments. In 1971 the Department of Energy and Resources Management was renamed the Department of the Environment.

**ENERGY BRANCH**

The Energy Branch was organized in 1964, combining the activities of the Department relating to energy. The earlier branches, Drilling and Production, Energy Studies, Utilization Inspection, then became divisions or sections of the new Branch.

The Drilling and Production Section collected and distributed geological data and inspected drilling operations. In January 1968 it became known as the Petroleum Resources Section and in 1970 was transferred to the Department of Mines and Northern Affairs.

The Energy Studies Section collected statistics on oil and gas and prepared reports. In 1970 it was put under the authority of the Ontario Energy Board.

The remaining functions of the Energy Branch were concerned with safety in the distribution and use of fuels, standards of appliances and equipment, and training and certification of workers. In June 1970 the Branch was transferred to the Safety and Technical Services Division of the Department of Labour.

## DENTAL SERVICES BRANCH

The Division of Dental Services became known in 1959 as the Dental Services Branch. In 1966 public health dentistry was made a responsibility of the Local Health Services Branch in the Public Health Division.

## ENVIRONMENTAL HEALTH SERVICES BRANCH

The Environmental Health Branch was established in 1966 in the Public Health Division. It was an amalgamation of the Environmental Sanitation Branch and the Industrial Hygiene Branch. The new branch included four important services: Air Pollution Control Service, Occupational Health Service, Pesticides Control Programme, and Public Health Engineering Service. In 1967 the Branch was renamed Environmental Health Services Branch.

## ENVIRONMENTAL SANITATION BRANCH

After the dissolution of the former Division of Sanitary Engineering, the Environmental Sanitation Division was established on April 1, 1957. In 1959 the Division became known as the Environmental Sanitation Branch and in 1966 was combined with the Industrial Hygiene Branch to form the new Environmental Health Branch (renamed Environmental Health Services Branch in 1967).

**PLANNING AND DESIGN BRANCH**

Publications of the Planning and Design Branch are listed under Planning Branch.

**RESEARCH BRANCH**

The Research Branch was established in July 1964. It was made responsible for directing and co-ordinating research projects formerly carried out by the Joint Highway Research Programme as well as directing research into highway engineering problems for the Department and Ontario's municipalities. With the formation of the new Branch, the former Materials and Research Division (called Section until 1960) became known as the Materials and Testing Division.

On April 1, 1970, the Branch was expanded to include the Transit Planning and Transit Operations Offices and was renamed Research and Transportation Systems Branch.

**Serials:**

D.H.O. report. no. 1-57, 1952-64; no. RB101-114, 1965-66; no. RR115-172, 1967-71. illus.

Title and name of issuing branch vary.

Continued as *D.T.C. report*, issued by the Research Division, Department of  
 Transportation and Communications. OTDT, OTL

no. 1. Load testing programme of Department of Highways, by M.M. Davis.  
 1952. (Not seen)

[no. 2]. An engineering method of petrographic analysis for coarse aggregate quality, by R.L. Bayne and F.C. Brownridge. Presented at the 36th convention of the Canadian Good Roads Association, Banff, Alberta, September 13-16, 1955. 1955. 18 leaves. illus. Processed.

no. 3. A review of swamp or muskeg literature with methods for treatment and recommendations, by F.C. Brownridge. 1957. 22 leaves. Processed.

[no. 4]. The effect of percent crushed variation in coarse aggregates for bituminous mixes, by Frederick Field. To be presented at the technical sessions of the annual meeting of the Association of Asphalt Paving Technologists at Montreal, Canada, February 17-19, 1958. 1957. 29, [16] leaves. illus., diags. Processed.

[no. 5]. Laboratory evaluation of bituminous additives for use in mulch or cold-mix plant application, by Sam S. Nargolwalla. 1958. i, 52 leaves. diags. Processed.

[no. 6]. Correlation of laboratory compaction with field compaction for asphaltic concrete pavements, by Frederick Field. 1958. 57 leaves. illus., diags. Processed.

no. 7. Field evaluation of methods of curing concrete pavements (contract 57-220-Highway 401-July 1958), by D.J.T. Hussell. 1958. 26 p. diags. Processed.

**Serials (continued):**

- [no. 8]. Highway shoulders; an appraisal of the problems connected with highway shoulders and some possible remedial measures, by A. Leslie. 1959. 8 leaves. Processed.
- no. 9. Proper practices in culvert installation. Presented at the Ontario Good Roads Association's "T.J. Mahony" Road School on a course for road superintendents at the University of Toronto, by L.G. Soderman. 1959. 10, [4] leaves. illus., diagrs. Processed.
- no. 10. Soil stabilization, stabilized shoulder test sections, Hunstville District, by A. Leslie. 1959. (Not seen)
- no. 11. Soil stabilization, stabilized shoulder test sections, Sudbury District, by Alan Leslie. 1959. ii, 33, [54] leaves. illus. Processed.
- no. 12. Effect of sand grading variations on bituminous mixes, by Frederick Field. Presented at the fourth annual conference, Canadian Technical Asphalt Association, Winnipeg, Manitoba, Nov. 23-25, 1959. 1959. 37 leaves. diagrs. Processed.
- no. 13. Moisture difficulties and aggregate drying problems in hot mix construction [by J.T. Corkill] 1959. 10, [11] leaves. illus. Processed.
- no. 14. Experiences with Inco slag for highway construction purposes, by G.A. Wrong. 1960. 25, v, 2 leaves. illus., diagrs. Processed.
- no. 15. Freeze-thaw and scaling tests on silicone treated concrete, by D.J.T. Hussell. Prepared for presentation at the forty-second annual meeting of the Highway Research Board, Washington, D.C., January 7-11, 1963. 1962. 13, [22] p. illus., diagrs. Processed.
- no. 16. Correlation of engineering and pedological soil classification in Ontario, by A. Rutka. Prepared for presentation at the meeting of the Royal Society of Canada, section IV: Symposium on soils in Canada, June 7 and 8, 1960, Queen's University, Kingston, Ontario. 1960. 24 leaves. diagrs. Processed.
- no. 17. Experimental development in Ontario of grouts for prestressed concrete cable ducts, by P. Smith. Offered for presentation at Fip-Rilem Symposium, Trondheim, Norway, Jan. 5-7, 1961. 1960. iii, 28, [20] leaves. illus., diagrs. Processed.
- no. 18. Co-ordination of concrete paving operations by a trial area specification, by P. Smith. Prepared for presentation at the fortieth annual meeting of the Highway Research Board, Washington, D.C., Jan. 9-13, 1961. 1960. 27, 2, 24 leaves. illus. Processed.
- no. 19. Cold weather concreting, by P. Smith. 2d ed. 1961. 27, [16] p. diagrs. Processed. First edition published 1960.
- no. 20. Settlement at bridge approaches. 1960. 23, 2 leaves. illus., diagrs. Processed.
- no. 21. A laboratory evaluation of Ontario air cooled slags as concrete aggregates, by B. Chojnacki and J. Ryell. 1960. 19, [22] leaves. illus. Processed.
- no. 22. An evaluation of concrete bonding agents, by B. Chojnacki. 1960. 15, [15] leaves. illus., diagrs. Processed.
- no. 23. Bridge abutment movements due to artesian pressures at depth, by L.G. Soderman and A. Rutka. Presented at the 42nd convention, Canadian Good Roads Association, in Banff, Alta., September 1961. 1961. 13 leaves. diagrs., map. Processed.
- no. 24. Pore size and field frost performance of soils, by Thomas I. Csathy and

David L. Townsend. A paper submitted to the Highway Research Board for presentation at the annual general meeting, Washington, 1962. 1961. 23 leaves. diags. Processed.

no. 25. Laboratory evaluation of the causes of asphalt pavement defects, by Frederick Field. Presented at the sixth annual conference, Canadian Technical Asphalt Association, Victoria, British Columbia, Nov. 27-29, 1961. 1961. 14, 4 leaves. Processed.

no. 26. Epoxy resins for concrete construction and restoration; a guide and account of their use in Ontario in both new construction and the repair and restoration of old concrete, by Peter Smith, Henry Chyc, and Karl Langhammer. 1962. 101, 12 leaves. illus. Processed.

no. 27. Observations on protective surface coatings for exposed or asphaltic surface concrete. (Not seen)

no. 28. An evaluation of joint fillers, by B. Chojnacki. 1962. 7 leaves. diags. Processed.

no. 29. Frost design practice in Canada, by Malcolm D. Armstrong and Thomas I. Csathy. A paper submitted to the Highway Research Board for presentation at the annual meeting, Washington, 1963. 1962. 50, [16] p. illus., maps. Processed.

no. 30. Nuclear methods for determining density and moisture content; a review of the literature, by Thomas I. Csathy. 1962. 50 p. Processed.

[no. 31]. Investigation and repair of damage to concrete caused by formwork and falsework fire, by Peter Smith. 1963. 1535-1566 p. illus. Extract from the Journal of the American Concrete Institute, November 1963.

no. 32. A study of the skid resistance of pavement surfaces, by Thomas I. Csathy. 1963. ii, 28 p. illus., diags.

no. 33. Uniformity of application of bituminous binders in surface treatment work, by Alan Leslie. 1962. 10 p. illus.

no. 34. Some case records of embankment failure, by K.Y. Lo and A.G. Stermac. 1963. 15 p. illus., diags. Processed.

no. 35. Accelerated strength testing of concrete cylinders, by P. Smith and B. Chojnacki. Presented at the 66th annual meeting of A.S.T.M., Atlantic City, New Jersey, U.S.A., June 1963. 1963. 2, 27 p. diags. Processed.

no. 36. An evaluation of concrete repair materials, by B. Chojnacki and H. Chyc. 1963. 31, 4 p. illus., diags. Processed.

Addendum. 1963. 4 p. Processed.

no. 37. Principles of geophysical resistivity technique, by Alex S. Szenasi. 1963. i, 11 p. illus., diags. Processed.

no. 38. An unusual case of surface deterioration on a concrete bridge deck, by J. Ryell. Presented at the fall meeting, American Concrete Institute, Toronto, Nov. 11-14, 1963. 1964. 22 p., [15] leaves. illus. Processed.

no. 39. Some aspects of nuclear soil testing, by Thomas I. Csathy. 1963. ii, 37 p. diags.

no. 40. Learning to live with a reactive carbonate rock, by P. Smith. 1963. 9 p. illus. Processed. Presented at the forty-third annual meeting of the Highway Research Board, Washington, D.C., January 1964.

no. 41. Experimental composite pavement, Hwy. 401 near Milton, by P. Smith. 1963. 11 p. illus., diags. Processed.

**Serials (continued):**

- no. 42. A field investigation of aggregate drying, by J.T. Corkill. Presented at the 8th annual Conference of Canadian Technical Asphalt Association, Toronto, November 1963. 1963. 24, [10] p. diags. Processed.
- no. 43. The compaction of asphaltic concrete on the road, by H.J. Fromm. 1963. ii, 43 p.
- no. 44. An evaluation of continuous wire mesh reinforcement in bituminous resurfacing, by F.C. Brownridge. Presented at the annual meeting of the Association of Asphalt Paving Technologists, Dallas, Texas, February 1964. 1964. 43 p. illus., diags. Processed.
- no. 45. Snow and ice control on the provincial highway system of Ontario, by D.R. Brohm, W.G. Cooke, and A. Leslie. A paper submitted to the National Research Council for presentation at a Conference on Snow and Ice Control in March 1964. 1964. 22, [19] p. illus. Processed.
- no. 46. Skidding and skid resistance; a review of the literature, by Thomas I. Csathy. 1964. ii, 85 p. Processed.
- [no. 47] Some pile loading tests in stiff clay, by K.Y. Lo and A.G. Stermac. 1964. 63-80 p. illus., diags. Reprinted from *Canadian geotechnical journal*, March 1964.
- no. 48. How good is your mixer? A study of the mixing efficiency and performance of ready mixed concrete trucks, by P. Smith and H.A. Van Dusen. Presented at the Ready Mixed Concrete Association of Ontario fifth annual School of Concrete Technology, University of Ottawa, March 23rd, 1964. 1964. 11, [15] p. illus. Processed.

## EMPLOYMENT STANDARDS BRANCH

In 1963 a Labour Standards Branch was created to administer the legislation controlling conditions such as minimum wages, hours of work, vacations with pay and overtime. The nucleus of the Branch was the Industry and Labour Board, which for many years administered the statutes that became the responsibility of the Branch. On January 1, 1969, a new Employment standards act came into effect, and the name of the Branch was changed to Employment Standards Branch.

**ONTARIO HUMAN RIGHTS COMMISSION**

The Ontario Anti-Discrimination Commission was established in 1958, its function being to advise the Minister of Labour in the administration of the Fair employment practices act, the Female employees' fair remuneration act, and the Fair accommodation practices act.

On March 29, 1961 the name of the Commission was changed to Ontario Human Rights Commission and it was made responsible for furthering the principle "that every person is free and equal in dignity and rights without regard to race, creed, colour, nationality, ancestry, or place of origin." In 1962 this principle was put into law as the Ontario human rights code, which is administered by the Commission.

**LANDS AND SURVEYS BRANCH**

On December 1st, 1957 the Division of Surveys and Engineering and the Division of Lands merged to form the Division of Surveys with two branches, Lands and Surveys. In 1959, the Division was renamed Lands and Surveys Branch and the former Lands Branch and Surveys Branch became sections of it. The Land Use Planning Section and Engineering Section were added about 1960 and the Land Acquisition Section in 1963. Two of these sections merged as Land Acquisition and Planning in 1966. In the departmental re-organization of 1971, the Lands and Land Acquisition and Planning Sections were removed to form the new Lands and Waters Branch. The Engineering Services Section, which had moved to the Forest Protection Branch in 1969, was combined with the Surveys Section to form the Surveys and Engineering Branch.

**ONTARIO PARKS INTEGRATION BOARD**

The Board was established by the Ontario Parks Integration Board act, which came into force on April 1, 1956. The membership consisted of the chairmen of the Niagara Parks Commission and the St. Lawrence Parks Commission as well as the ministers of several related government departments. The Board was set up to supervise and control matters of major policy concerned with the establishment, acquisition, development, and administration of provincial parks under the Department of Lands and Forests and parks under the administration and management of the Niagara Parks Commission and the St. Lawrence Parks Commission. An amendment to the act in 1960 extended the powers of the Board to include parks established and operated under the Conservation authorities act and parks established under the Parks assistance act. The Board ceased to exist on April 1, 1972, when the Ontario Parks Integration Board act was repealed.

**PARKS BRANCH**

The Division of Parks was established on October 1st, 1954 to provide and develop a provincial park system to meet the public's need for outdoor recreation. It was renamed Parks Branch in 1959 and was enlarged and re-organized in 1965 into

three sections: Recreational Planning, Park Planning and Development, and Parks Management. In 1967 the responsibility for access points, wilderness areas, canoe routes and hiking trails was transferred from the Lands and Surveys Branch to the Parks Branch. The Branch was re-organized in July 1971 as the Parks and Recreation Areas Branch with two sections: Park Planning, and Park Management and Development.

**TIMBER BRANCH**

In 1957 the Division of Timber Management and the Division of Reforestation were amalgamated as the Division of Timber. In 1959 the Division was renamed Timber Branch and incorporated three sections: Reforestation, Silviculture and Timber. On September 2, 1969 the Branch was reorganized into two sections, Timber Production and Timber Sales, and one separate unit called the Forest Economics Unit.

In 1971, the Timber Branch ceased to exist and two new branches, Timber Management and Timber Sales were formed. The Forest Economics Unit was incorporated into the new Resource Economics Branch.

## DEPARTMENT OF MINES AND NORTHERN AFFAIRS

The name of the Department of Mines was changed to Department of Mines and Northern Affairs in 1970. The Northern Affairs Branch was established the same year.

### Serials:

Annual report, Ontario Department of Mines and Northern Affairs. v. 1, 1891–illus., maps.

16 reports for the years: 1955 (pt. 1–8), 1956 (pt. 1–7), 1957 (pt. 1–8), 1958 (pt. 1–4), 1959 (pt. 1–2), 1960 (pt. 1–8), [1960], 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969.

v. 64–69, 1955–1960, contain reports for 1954–1959; v. 70, which contains report for 1960, has been issued without a nominal date; from 1961 the nominal date corresponds with the period covered.

1955–1960 contain a statistical review of the mineral industry, a report on mining accidents, on mining operations, and geological reports. From 1960 the geological reports have been issued as a separate series.

[1960]–1967 contain a statistical review and a report on mining operations. From 1968 the statistical review is issued separately as *Annual statistical report on the mineral production of Ontario*.

1968–1969 consist only of a report on mining operations.

A complete list of contents is given in *Bulletin* no. 25.

Some of the reports are accompanied by separate maps; these maps are listed in *Bulletin* no. 25. OTL

**ASSESSMENT DIVISION**

The Municipal Assessment Branch (also known as the Assessment Branch) became the Assessment Division on July 1, 1969, owing to the transfer of the assessment function from the municipalities to the province on January 1, 1970. The Division's main responsibility was to administer the assessment of all real properties in Ontario for the purpose of municipal taxation. An Assessment Standards Branch and an Assessment Education Branch were set up within the Division. The former was responsible for conducting research into new techniques of property valuation; the latter was responsible for training assessors.

## HISTORICAL BRANCH

The Historical Branch was established on April 1, 1958, in the Department of Travel and Publicity to be responsible for all matters relating to history and archaeology. In 1959 it was assigned the administration of grants in aid made to municipally owned historical museums. A museums' advisor was added to the staff to assist local museums in the selection, preservation, and display of their collections. In 1963 the Historical Branch was transferred to the Department of Public Records and Archives.

Publications of the Historical Branch are listed under Department of Public Records and Archives.

## TREASURY BOARD

The Treasury Board, composed of members of the Executive Council, was first established in 1886 under the Audit act, and continued from 1954 under the Financial administration act. The Board, with the Treasurer as chairman, acted as a committee of the Executive Council on all matters relating to finance, revenues, estimates, expenditures and financial commitments.

Amending legislation of 1956 and later years provided that the Board should have a Secretary with a staff. The Treasury Board Secretariat came to function as a department, with the Secretary having the status of a deputy minister.

In December 1971 the Treasury Board was superseded by the Management Board of Cabinet.

## DEPARTMENT OF TREASURY AND ECONOMICS

On December 15, 1967, the economic and financial branches of the Department of Economics and Development, which constituted the Office of the Chief Economist, were merged with the Treasury Department. On July 23, 1968, under the Financial administration amendment act, the Department of Treasury and Economics was established to be responsible for financial, economic, accounting, and taxation policy, and the management of the public debt and government investments. At the same time the tax collection and tax administration functions of the Treasury Department were assigned to a new Department of Revenue.

The Department of Treasury and Economics was organized in four divisions: Economic and Statistical Services; Finance; Government Accounts; and Policy Planning.

## ONTARIO WATER RESOURCES COMMISSION

The Ontario Water Resources Commission was established in 1956. Its functions included the development of water supplies, the construction and operation of water and sewage systems for municipalities, and the conducting of research programs. New legislation in 1957 added new responsibilities, including supervision over all water and sewage works in the Province, and the control of pollution of all surface and ground waters. In April 1972 the Commission was integrated into the Ministry of the Environment.

**DIVISION OF INDUSTRIAL WASTES**

On April 1, 1957, an industrial waste branch was organized in the Division of Laboratories and Research. In April 1965 the branch was established as the Division of Industrial Wastes. It administered the Commission's program of controlling pollution caused by discharges of industrial wastes.

**DIVISION OF LABORATORIES**

The Division of Laboratories and Research was organized in 1957. In 1961 a separate Division of Research was formed, and the earlier division was known as Division of Laboratories. It carried on a support program for the other divisions of the Commission by chemical, bacteriological, and biological analyses.

**DIVISION OF SANITARY ENGINEERING**

The Division of Sanitary Engineering was responsible for the supervision of water supplies, sewage disposal, and stream sanitation. It examined plans for all new water and sewage works. The Stream Sanitation Branch of the Division developed into the Water Quality Surveys Branch, which undertook surveys in the water quality management program. Surveys were made of the Great Lakes and of river basins. The Plumbing and Boating Branch administered regulations on plumbing and on the disposal of sewage and garbage from pleasure boats.

**DIVISION OF WATER RESOURCES**

The Division of Water Resources was organized in 1957. In April 1957 the Ground Water Branch was transferred to the Division from the Department of Mines. The Branch had supervision over well drilling operations throughout the Province and made surveys of ground water. The Surface Water Branch was formed in May 1959 to compile information on surface water resources. In 1965 the Division was reorganized and these branches were replaced by four: Surveys and Projects; Water and Well Management; Hydrologic Data; and River Basin Research.
